

Immediate Response

The "911" for Rapid Colic Relief and so much more!

Feed entire tube during crisis to 1,000 lb horse. Other, 10 mL per 100 lbs of body weight.

Essential for horse owners everywhere! At home, at shows, on the trail or traveling.

Natural and Safe

Great for Mares and Foals!

Administer to mares immediately after foaling as well as to the newborn foal and daily for seven days to help counteract scours!

A University of Florida study of mares supplemented with mannan oligosaccharides (MOS) showed increased concentrations of colostrum immunoglobulins IgG, IgM and IgA levels in the milk. Foals that receive higher levels of antibodies through passive transfer help reduce potential infections and a healthier foal with increased growth performance. Foals also tended to have less incidences of diarrhea.

Compatible with Antibiotics and NSAIDS!
Each strain was tested for its ability to survive and grow in the presence of OVER 40 antibiotics!

At Shows & Competitions

Trail & Endurance

- ♥ Colic
- ♥ Scours/Diarrhea
- ♥ Illness
- ♥ Stressors such as hauling, temperature, confined spaces, physical trauma
- ♥ Exposure to moldy hay or forage
- ♥ Heat exhaustion
- ♥ Upper respiratory
- ♥ Feed allergies
- ♥ Mycotoxins
- ♥ Feed intolerance
- ♥ Pica (eating feces, dirt, etc.)
- ♥ Medicinal reactions
- ♥ Exercise induced "bleeders"
- ♥ Heaves
- ♥ Chronic intestinal disturbance
- ♥ Geriatric horses
- ♥ Helps restore digestive balance
- ♥ Helps regulate pH balance
- ♥ Helps enhance the immune system
- ♥ Changes in feed & water
- ♥ Separation anxiety
- ♥ After de-worming/ vaccinations

During Transport

Just Hangin' Out

Guaranteed Analysis: per 10 ml:

Vitamin B2: 1 mg
 Pantothenic Acid: 10.5 mg
 Vitamin B6: 2.5 mg
 Aspergillus oryzae: 1.3×10^5 CFU
 Bacillus subtilis: 3.8×10^5 CFU
 Saccharomyces cerevisiae: 3.4×10^6 CFU
 Mixed lactic acid bacteria: 1.3×10^7 CFU

Ingredient Statement:

Yeast Extract, Primary Dried Yeast, Mucilage, Vegetable Oil, Dried apple pectin pulp, Carrageenan, Dried lactobacillus acidophilus fermentation product, Dried Enterococcus faecium fermentation product, Dried Lactobacillus casei fermentation product, Dried Aspergillus niger fermentation extract, Dried Aspergillus oryzae, Dried Bacillus subtilis fermentation extract, Polysorbate-80, Silicon dioxide, d-calcium pantothenate, Pyridoxine hydrochloride and Riboflavin.
