

Smart**STRAW** BEDDING™

100% All Natural STRAW BEDDING
for All Types of Animals

• All-Natural • Biodegradable • Sustainable • Lightweight

SmartSTRAW Bedding is an eco-friendly, biodegradable 100% all-natural straw bedding for all types of animals.

Non-allergenic and less dusty than most conventional beddings, it absorbs more odors and moisture than common bedding materials, wood shavings or sawdust. It's absorbent characteristics require less bedding and less disposal volume.

SmartSTRAW Bedding makes an excellent plant/animal based compost fertilizer.

SmartSTRAW Bedding

- Available in 25 lb bags
- Application rate varies according to animal comfort. Apply the necessary volume for odor control and dry bedding maintenance.
- Apply Barn Tender with SmartSTRAW bedding. Refer to the back for additional information on Barn Tender

Benefits of *SmartSTRAW* BEDDING:

- Supports animal health, comfort and welfare
- Less dusty than most conventional beddings
- Absorbs more ammonia than common bedding materials
- Strong moisture absorbance capacity ensures a dry bedding area for animals
- Insulation effect, which helps prevent animal heat loss in cold weather
- Requires up to 50 percent less bedding volume than wood shavings
- Improves cleanliness and appearance of animals
- Improves barn or stable appearance
- Less bedding volume equals reduced labor and disposal costs
- Derived from a natural and renewable source
- Faster biodegradable breakdown when applied to soil in comparison to wood based bedding
- Particle size is easy to spread
